

In this age of digitisation and mobile workplaces, the topic of security has gained an even higher priority. When it comes to securely filing, editing and exchanging sensitive documents and information in particular – be it within the scope of a Board of Directors' meeting, or the Management Board, or when working within confidential projects.

SwissTrustRoom

**Secure exchange of information for a defined group of users - SwissTrustRoom offers you a highly secure and user-friendly solution.**

**What is Swiss Trust Room?**

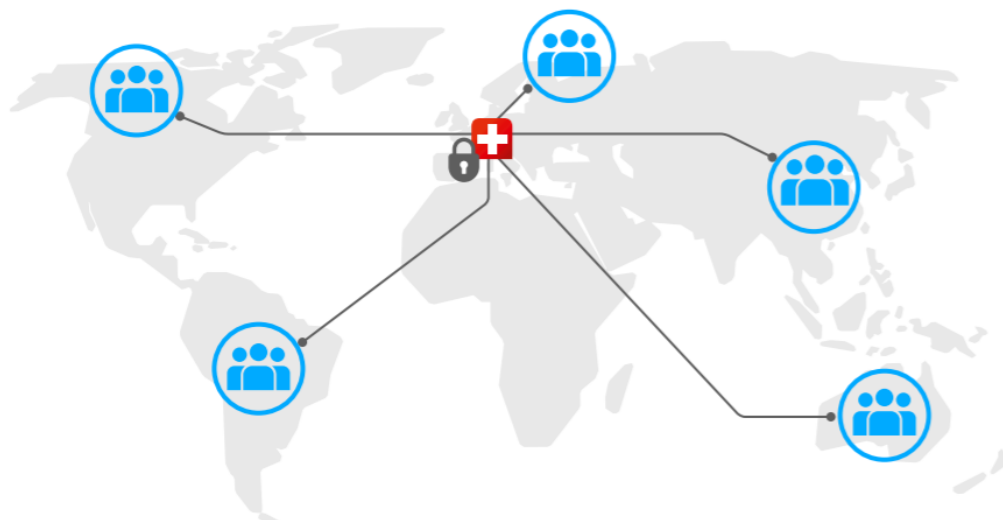

The service makes it possible for you to exchange confidential information securely and process it efficiently. SwissTrustRoom features several security and authentication levels, and therefore prevents company information from being viewed, modified or accidentally forwarded by unauthorised persons. Because all activities are logged, meeting all compliance requirements is guaranteed.

With its intuitive operation, SwissTrustRoom provides an optimal platform for collaboration in committees and confidential projects. This 100% Swiss solution can be used by means of a web browser without the need to install additional software and can be activated at any time.

**Your benefits with SwissTrustRoom**

- **Fast decision-making**  
Make decisions anytime, anywhere.
- **Exchange sensitive information**  
You can share your confidential information securely and reliably.
- **Authorised users only**  
Only authorised persons obtain access to information.
- **Retention of control**  
All activities are recorded in an audit-compliant log.
- **Data storage in Switzerland**  
Your data will be stored exclusively at Swisscom on Swiss soil.
- **Secure data exchange**  
Automatic, highly encrypted transmission and storage of your data is guaranteed.
- **Qualified electronic signature**  
You can integrate a legally valid signature and thereby save yourself any media discontinuity.

**The solution at a glance**

swisscom
