

Protected exchange of information for a defined group of users.
With Swiss Trust Room, Swisscom offers you a highly secure and user-friendly solution.

Swiss Trust Room Service

Awareness of digital risks and the demand for more digital transparency and reliability are constantly increasing. Especially when it comes to the protected storage, processing and exchange of sensitive documents and information – whether within the framework of a committee of the Board of Directors or the Executive Board or within confidential projects.

What is Swiss Trust Room?

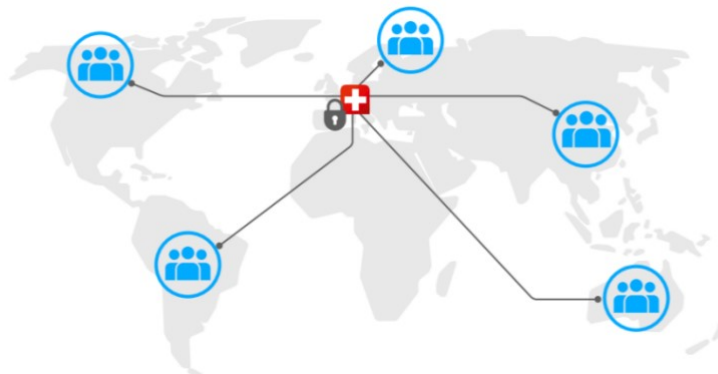

The service makes it possible for you to exchange confidential information securely and process it efficiently. SwissTrustRoom features several security and authentication levels, and therefore prevents company information from being viewed, modified or accidentally forwarded by unauthorized persons. Because all activities are logged, meeting all compliance requirements is guaranteed. With its intuitive operation, Swiss Trust Room provides an optimal platform for collaboration in committees and confidential projects. This 100% Swiss solution can be used by means of a web browser without the need to install additional software and can be activated at any time

The solution briefly

Your benefits

with Swiss Trust Room Service

- **Fast decision-making**
Make decisions anytime, anywhere.
- **Exchange of sensitive information**
Share confidential information securely and reliably.
- **Personalized access to information**
Information access only for authorized.
- **Keep control**
All activities are recorded in an audit-proof log.
- **Data storage in Switzerland**
Your data is stored exclusively by Swisscom on Swiss soil.
- **Secure data transmission**
In the Swiss Trust Room, an automatic, strongly encrypted transmission and storage of your data takes place.
