

# MyInvoice

Access invoices easily, any time and any place

Are you still receiving your bills for mobile and fixed-network telephony or Billing Solutions on paper? Then it's time to switch to electronic invoicing. Aside from making a valuable contribution to environmental protection, you will also have the benefit of a digital archive.

### What is MyInvoice?

This service offers you full invoice transparency. You receive your digital invoices either via e-mail or as an eInvoice. You have all invoice copies, including details.

### Important note

The invoice copies in "MyInvoice" are neither VAT-compatible nor suitable for business transactions with public authorities. They are used for information purposes only.

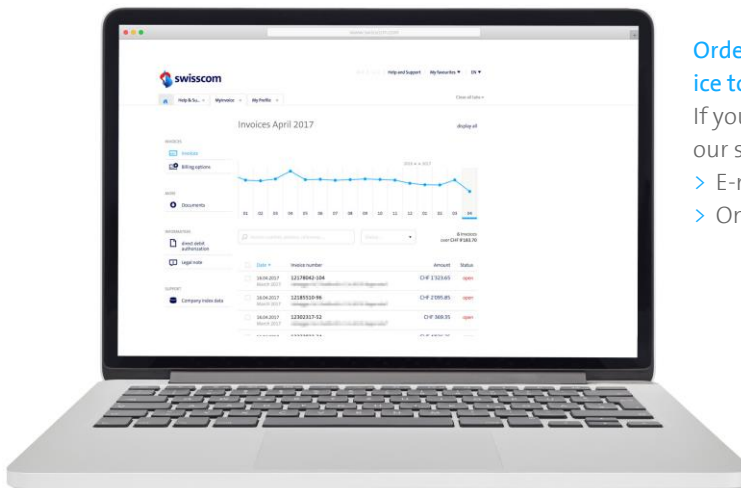

### Your benefits

With MyInvoice you can

- > view your invoices online and download them as a PDF
- > use a range of search criteria to find invoices from the last 24 months and access their payment status (paid, paid in part or outstanding)
- > save documents locally and process them further
- > you can define which and how many people at your company are authorised to view the invoices
- > in eService, under "Invoice options", switch from paper dispatch to invoice via e-mail, or manage your data

---

The solution at a glance.
