

Ideal solution to support Swisscom IP telephony

Fail-Safe System Option

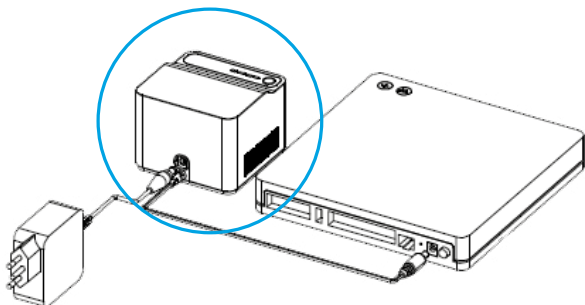

Never lose your connection

The APC Back-UPS Connect CP12044LI is an uninterruptible power supply (UPS) that is specially designed to power Swisscom Internet-Box standard and Internet-Box light routers for prolonged periods of time during a power outage.

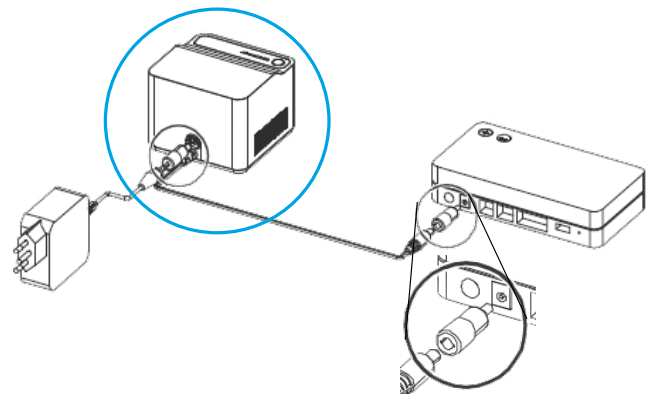

The internal lithium-ion battery of the CP12044LI is capable of providing battery backup power for up to 3 hours.

This solution is particularly suitable for emergency call telephones, e.g. in lifts.
