

We are living in an era of rapid digitalisation. Even faster, even more flexible and available anywhere – your infrastructure needs to grow to meet today’s demands. Wherever you find yourself on your journey to the cloud, it is now more important than ever to drive your company’s IT forward. We’ll support you with your digital transformation and accompany you on this challenging adventure.

**With Microsoft Solution Assessments by Swisscom, you can maximise your full potential. Your company will become more agile, more flexible and more secure, fully prepared for the present and the future.**

**What are Microsoft Solution Assessments?**

We’ll put your current ICT environment through its paces with a strong focus on your business cases. Depending on your situation and level of digital maturity, we will analyse numerous aspects of Microsoft 365 and/or Azure. We will show you, in practical terms, what the path to the Microsoft Cloud might look like for your company, and help you to meet the challenges of the new normal and future digital transformation. Take advantage of the opportunities and innovation potential offered by the digital transformation – we’ll help you with our expert know-how and broad assessment portfolio. From cloud beginners to cloud optimisers – our Microsoft Solution Assessments cover every cloud-related requirement.
