

In the digital age, SMS messages are used in numerous business processes: they help financial institutions with authorisation, alarm centres with alerting, companies with keeping their staff informed as well as in mobile marketing. With E-Mail to SMS, you can easily send SMS messages worldwide via your existing e-mail infrastructure.

Send and receive SMS messages conveniently worldwide via your e-mail account

What is E-Mail to SMS?

With E-Mail to SMS, you can easily send SMS messages very quickly to recipients in Switzerland or abroad via e-mail. SMS replies are also conveniently sent to your e-mail address. This solution is exceptionally useful for mobile marketing, such as information dissemination and sending reminders and invitations.

And best of all: the more SMS messages you send, the less each message costs. You also don't need any extra technical equipment.

How you benefit with E-Mail to SMS

- You don't need any additional technical components
- You can easily use your existing e-mail infrastructure
- You don't need to use any new technical interfaces and protocols: just write an e-mail and the SMS is sent
- Easily and conveniently communicate with your customers worldwide
