

Price list AIS Service Seals for Organizations

This price list is for partners, integrators and end customer integrators who wish to combine their own signature application (subscriber application) with seals of Swisscom's All-in Signing Service. All prices quoted are in Swiss francs (CHF) and exclusive of VAT.

Provision, connection price and audit efforts

Provision, connection price and audit

Services	Comment	Price per year	One-off purchase price
Annual service price per service interface (SAIP) <ul style="list-style-type: none"> Advanced Seal (CH) Advanced Seal (EU) 	Annual settlement, for the first time in the month after signature of the contract	2'400.00	
Annual service price per service interface (SAIP) <ul style="list-style-type: none"> Regulated seal (CH) Qualified seal (EU) 	Annual settlement, for the first time in the month after signature of the contract, contains regular ceremonies for key generation	9'800.00	
Option: additional seal with same signature certificate and different organizational unit (OU entry)	Can be ordered separately. Annual billing, for the first time together with the annual billing of the annual connection charge. Price per certificate.	500	
Consulting efforts for setup of the interface	Up to three person-hours Each further person-day	Included According to effort ^{*)}	
	Audit price in the event of the customer neglected its obligations under the Contract	According to effort ^{*)}	

^{*)} Daily rate: Swisscom 1'920.00 CHF, cost for auditors should be approx. Calculated with ca. 2'600.00 CHF per day. Travel expenses not included.

Due date for payment of the provision price, follow-up prices and audit expenses

The service prices are due annually, for the first time in the first month after startup of the service.

The price charged to Swisscom or a third party commissioned by Swisscom for exercising the right of inspection and control is included in the price list above, unless the result of the control justifies a price payment by the participant, as it has not fulfilled its obligation.

Any additional audit costs incurred by third parties in the event of non-compliance with customer's obligations will be invoiced annually by Swisscom or third parties after the actual audit work has been carried out.

All refunds in case of premature termination of the contract are excluded.

Prices for current usage

The price model is a "price per seal" model.

The volume consumed for the respective contract year is decisive. The price per seal falls from one volume band to the next for the following seals.

Service	Volume band: Seals per year via a Service Access Internet Point			Price per seal
Advanced or qualified seal (EU) with electronic timestamp or advanced or regulated seal (CH) with qualified timestamp (ZertES)	1	-	50'000	0.08
	50'001	-	500'000	0.06
	500'001	-	2'000'000	0.04
	exceeding			Project specific
Advanced or qualified seal (EU) WITHOUT electronic timestamp or advanced or regulated seal (CH) WITHOUT qualified timestamp (ZertES)	1	-	50'000	0.04
	50'001	-	500'000	0.03
	500'001	-	2'000'000	0.02
	exceeding			Project specific

Due date of payments of current usage prices

The current usage prices will be invoiced after one month. The service billing contains the number of seals executed per month.

All refunds in case of premature termination of the contract are excluded.

Use of several Service Access Internet Points

Volume bands or seals are applied per Service Access Internet Point. Volumes cannot be accumulated across multiple Service Access Internet Points.

Glossar

AIS Service	All-In Signing Service, which is provided by Swisscom up to the SAIP.
SAIP = Service Access Internet Point	The Service Access Interface Point (SAIP) is the contractually agreed logical point at which the service is provided and monitored for the customer, as well as the service levels provided. It is the communication point with the user application.

Example

55'000 seals for CH AND 10'000 seals for EU are executed annually. The calculation is like follows:

Position	Calculation	Price
Yearly Service cost: 2x (CH, EU)		4'800.00
Cost per seal (CH) up to 50'000	0.08 x 50'000	4'000.00
Cost per seal (CH) > 50'000	0.06 x 5'000	300.00
Cost per seal (EU) up to 50'000	0.08 x 10'000	800.00
Total		9'900.00
