

In the digital age, faxes continue to be used in numerous business processes. Companies are digitalising their fax machines and send and receive faxes via their existing e-mail infrastructure.

Easily and conveniently send and receive faxes worldwide via your existing e-mail infrastructure.

What is E-Mail to Fax?

With E-Mail to Fax, you can easily and quickly send faxes by e-mail to recipients in Switzerland and abroad. You can also connect your mailboxes to Fax to E-Mail numbers, enabling you to determine which e-mail address received faxes should be forwarded to. You don't need any additional technical equipment to use the service.

Your benefits with E-Mail to Fax

- No additional infrastructure
You don't need any extra technical components to use this service. You can conveniently use your existing e-mail infrastructure to send faxes.
- Easy to use
You don't need any new technical interfaces or protocols: just write an e-mail and your fax will be on its way.
- Self-care portal for business customers
Easily manage your service online. Sent messages will be immediately logged.
- Flexible e-mail connections
You can decide which e-mail addresses incoming faxes should be forwarded to. More than one mailbox can be linked to a single fax number.
