

Digitalisation offers you new ways to enjoy an unforgettable TV experience as well as take the pressure off your team and generate additional revenue opportunities.

blue TV Host / Host advanced

With blue TV Host, you get an all-round TV and entertainment package that keeps your guests and residents happy and simplifies your processes.

What is blue TV Host?

blue TV Host is the popular blue TV package created specifically for hotels and residential facilities. The solution is installed and operated by the certified IT partner of your choice. You benefit from a single point of contact for all communications services and a modern, high-performance range of entertainment and infotainment options for your guests or residents. blue TV Host advanced also includes guest WLAN.

blue TV Host offers you the following benefits:

- Calculable costs with a fixed price per room, without having to invest in new systems.
- All access points, TV boxes and VAT are already included in the price. No minimum contract term.
- Over 300 programs, pre-programmable station lists. Just one remote control for TV box and TV.
- **Use the information channel** to show news about the hotel/residential facility, weather forecasts, event information, menus, etc. directly on the TV screen in your room, in the lobby or in the lounge. This saves you money and allows you to generate additional revenue through advertising.

A diverse offer: This is what distinguishes blue TV Host

Over 300 TV channels and radio stations with 5 pre-programmable channel lists

UHD TV-Box including remote control

Fixed price per UHD TV-Box, without additional outlay

Thanks to Managed Service, your software and hardware is always up to date

Secure guest WiFi

Info channel with your chosen layout for the latest news and customised information
