

You can turn Microsoft Teams, the teamwork hub, into a telephone system: with MS Teams Telephony (user based), you can make and receive phone calls directly from the desktop and mobile app using your fixed-network number.

MS Teams Telephony

**MS Teams Telephony: whether in the office, working from home or on the move: with MS Teams Telephony, you can communicate wherever you are.**

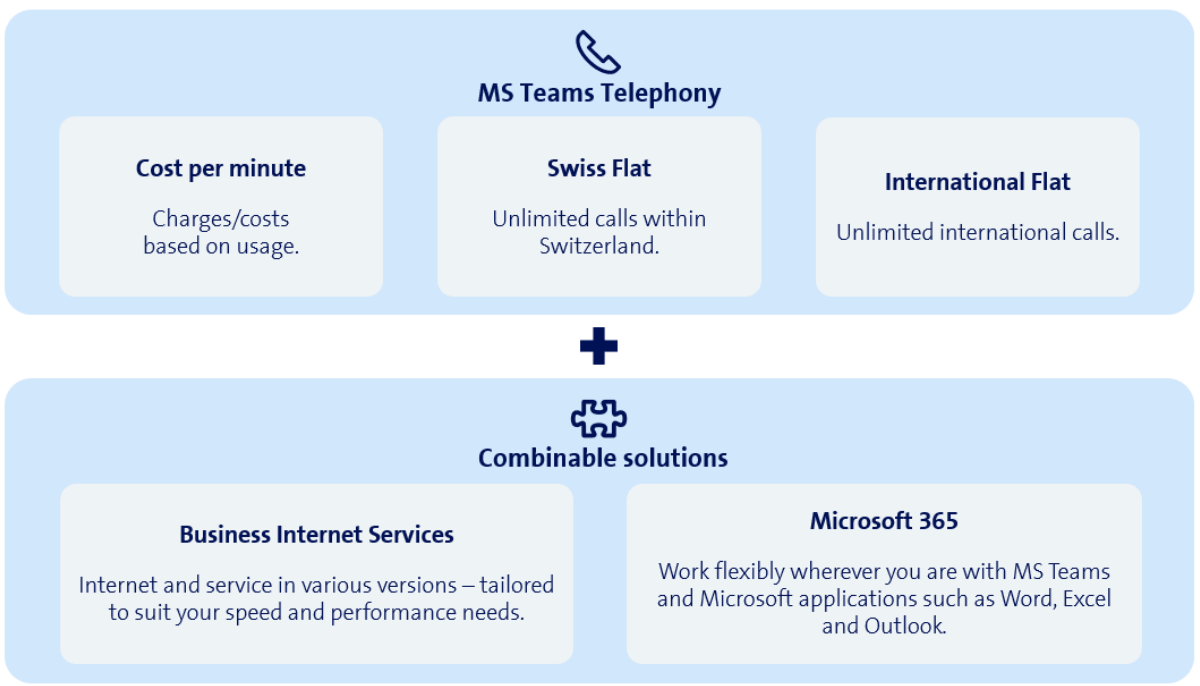

**What is MS Teams Telephony?**

One single application for all your communication needs: with MS Teams Telephony (user based), you can make calls from the Microsoft Teams app to the public telephone network from any device.

The offer comes in three different versions, with a per-minute rate, a Swiss flat rate or an international flat rate. For a perfectly synched solution, we also recommend using an Internet connection and the appropriate Microsoft 365 licences, including MS Teams User, from Swisscom.

**Your benefits with MS Teams Telephony**

- Clever universal solution: One application for calls, video telephony, chats, screen sharing and central document storage simplifies both teamwork and liaison with customers and suppliers.
- Needs-based: As a user-based solution, you only purchase the exact number of licences you need for your employees.
- Combinable: This offer can be purchased on its own or combined with other connectivity and IT solutions.
- For large and small: MS Teams Telephony can be integrated with different solutions to address specific company requirements.
- Professional support: Close, professional support during the transition phase and beyond – so your business gains the maximum benefit from your solutions.

	<b>MS Teams Telephony: International Flat</b>	CHF 22.–	
	Calls to international fixed and mobile networks (EU, Western Europe, USA and Canada; to other country groups in line with international rate) <sup>1</sup>		

## Combinable solutions

### Business Internet Services

Description	Business Internet Services provide you with a powerful Internet connection for different applications. Thanks to the fail-safe guarantee, you can continue surfing and making calls without interruption during a network failure. Available in four different versions.			
Versions	<b>L</b>	<b>M</b>	<b>S</b>	<b>XS</b>
Max. down/upload speed <sup>2</sup>	10 Gbit/s	300 Mbit/s	100 Mbit/s	10 Mbit/s
Internet Backup <sup>3</sup> Failsafe guarantee for Internet access Max. down/upload speed, Mbit/s	included 100/20	included 50/10	-	-
Monthly fee per connection	CHF 300.-	CHF 125.-	CHF 90.-	CHF 55.-

<sup>1</sup> More information on the tariff model (for Switzerland and abroad) is available [here](#).

<sup>2</sup> The available speed depends on local optical fibre expansion and the router that is used. A Swisscom connection with an optical fibre line (FTTH max 1 GBit/s and XGS-PON max. 10 GBit/s) to the business premises is usually required for identical upload and download bandwidths. Check the maximum speed available for your business address at [swisscom.ch/checker](http://swisscom.ch/checker)

<sup>3</sup> Internet Backup offers a failsafe guarantee for Internet access and is available free with a 4G USB-Stick or with a 4G Toolkit for Business (one-off CHF 99.–). As an Internet Backup Premium version the Toolkit for Business guarantees an improved internet and reception quality.
