

The options now offered by electronic trade open up new digitalisation and automation capabilities for cross-company processes. Conextrade by Swisscom is the leading B2B platform in Switzerland for digitalised procurement and invoice processing.

Conextrade

The efficient B2B hub for digitalising and automating business processes

What offers Conextrade?

Processes, such as ordering, delivery notes and invoicing can be performed efficiently and economically over Conextrade: buyers and suppliers maintain only one IT interface and maintain contact with all their preferred trading partners, wholly independent of the technologies, protocols and formats used. Various merchandise management, production planning systems and e-procurement applications use Conextrade to communicate. The standardised exchange of purchasing and sales data simplifies the cooperation between trading partners and generates substantial added value.

Your benefit with Conextrade

- Much lower process costs
- Paperless invoice process that is simpler, faster, more accurate and automated
- VAT compliance for more than 50 countries provides legal certainty in the invoice process
- Connections to all trading partners using just one technical interface
- Low investments/Project expenditure
- Automated invoice posting possible (order matching)

Conextrade customers benefit from a combination of experience, modern technologies, openness to various IT platforms and high-quality IT operating infrastructure.

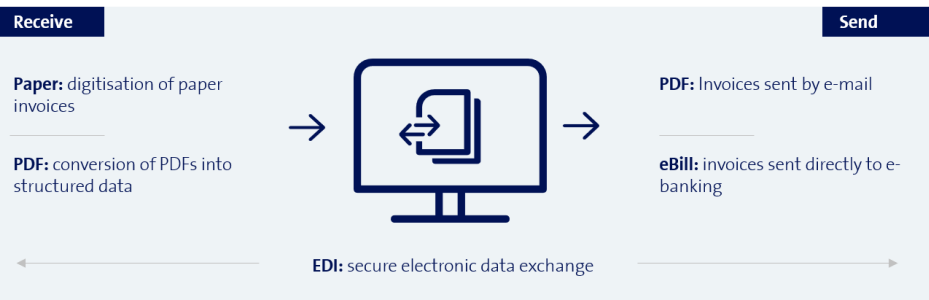

Conextrade at a glance

Core function

E-Invoicing: the legally compliant invoicing process. The invoicing party's data is converted, validated, digitally signed and sent to the recipient via the Conextrade platform.

E-Procurement: the electronic purchasing process. From selection of products or services through to order approval, e-procurement speeds up and optimises the process

Document exchange enabler

Other services

Archiving: fully automatic electronic archiving of your invoices

Accounts payable workflow: digitised approval process in your accounts payable workflow

E-Invoicing international: international conversion and digital signature for over 50 countries

Conextrade portal: invoicing portal for companies without their own ERP system (SMEs)

swisscom

Product Overview

Portfolio

E-Invoicing

This electronic and VAT-compliant invoice process performs many timeconsuming process steps and is VAT-compliant in more than 50 countries.

eBill

Thanks to eBill, you'll get your bills directly in your e-banking portal and be able to pay them with just a few mouse clicks.

E-Invoicing PDF

Simple dispatch of customer invoices as PDF by e-mail

Accounts payable workflow

The accounts payable workflow function simplifies and accelerates the invoice approval process hence reducing process costs.

Scanning2E invoicing

All supplier invoices received on paper or by e-mail in PDF format are extracted digitally and supplied as E-Invoicing.

E-Procurement

Simplify electronic procurement processes for products and services with IT support.

Archiving for Switzerland and internationally

Long-term electronic archiving simplifies the management, validation and supply of invoices for revision.

Electronic Data Interchange (EDI)

Solution for the simple, fast and secure exchange of electronic procurement data.

Conextrade portal

- Access to the Conextrade network without an ERP connection via the Portal
- Online invoice capture via input or upload.
- Web EDI for additional business processes, such as orders, order confirmations or delivery notes.

Consultancy

Integration projects and consultancy for all forms of cross-company processes

Managed supplier rollout

Managed rollout allows you to distribute your electron.
